Palazzoli

Palazzoli

The mark of a specialist.

Palazzoli has always left a distinctive mark of **specialization** on its path, charting a history of excellence in the most demanding sectors. Each step is a milestone marking our success in four key sectors: **Industry, ATEX, Infrastructure, and Marine**. This specialization is not only part of our DNA but also the key to offering **superior, long-lasting performance**, optimizing the results and investments of our customers. Palazzoli is synonymous with dedicated excellence: a special imprint that has defined and will continue to define the future of the industry.

Palazzoli

Federico Palazzoli, the inventor bringing the unexpected to life.

Since 1904, the founder Federico Palazzoli has pioneered innovation and engagement with the social environment, foreseeing and anticipating the needs of a world, that of 20th-century Europe, in deep transformation. With a constant focus on sustainability, we have integrated **the improvement of life quality and the environment** into our corporate philosophy.

Every thought, project, and action of ours is demonstrating our commitment to a safer and more sustainable future. **The value we place on people** within our company **reflects externally in a consistent commitment to social responsibility.**

This is why we have supported Cancer Research initiatives and youth education through partnerships with Technical Institutes and Art Academies.

Our experiential laboratory, NEW ARENA Palazzoli, embodies this exchange between inside and outside, turning our experiences into practical innovations that **enhance collaboration with our community, stimulating its growth.**

Palazzoli

The Palazzoli Group, always one step ahead since 1904.

From the beginning, in 1904, Palazzoli has crafted a legacy of **industrial excellence and innovation**. A leader in supplies for high-risk environments and pioneers in sustainable solutions, we have left an indelible mark in four key sectors: Industry, ATEX, Infrastructure, and Marine. With two product divisions, **electrical systems and lighting**, we tackle every challenge with creativity and an eye on the needs of tomorrow.

Our identity is deeply rooted in the territory where we were born and have grown, establishing ourselves as a **Group capable of integrating various skills** to offer comprehensive and globally accessible solutions. For over a century, Palazzoli has been a brand that carries a promise: that of a better future, built together, step by step, with passion, integrity, and a constant commitment to innovation and sustainability.

Always one step ahead.

Palazzoli

The Value Mission.

At Palazzoli, **customer focused operations and smart engineering** are the pillars on which we build our future. Through a sharp focus on market trends and changes, we aim to develop specialized innovations that respond concretely to present needs. **The quality of our manufacture and the excellence of our service** is the promise of peace of mind that we make to our customers. Our constant commitment to specialization, precision, and product durability ensures **long-term reliability**.

SERVICE EXCELLENCE

Palazzoli

The product is the protagonist.

The beating heart of Palazzoli is represented by our **specialized products**, designed for the sectors of Industry, ATEX, Infrastructure, and Marine. **Every solution, from electrification to lighting, is designed to simplify processes, enhance safety, and deliver lasting performance**, providing our customers with multitasking value.

Palazzoli's expertise **stands out for the selection** and skillful use of **specific materials** such as thermosetting GRP, thermoplastic, brass, stainless steel, and marine aluminium. With a vast production area, we are able to respond quickly and precisely to the needs of the global market. This excellence is our signature, a strong and indelible imprint in the industry.

Palazzoli

An enlightened vision.

Innovation drives Palazzoli's journey in the crucial sectors of lighting and electrification, continuously evolving thanks to advances in remote control and management technologies and increasing attention to individual protection. **We are committed to boosting comfort, strengthening safety, and minimizing emissions**, focusing on the development of sustainable, efficient, and integrated solutions.

In this era of transformation, **our circular expertise in mechanical, electromechanical, electrical, electronic, lighting, and software engineering** becomes essential. This approach meets the growing demand for the upgrading of lighting infrastructures, efficiency, and safety of electrical systems, in perfect synergy between innovation and respect for people and environment. This strengthens our ability to anticipate and meet future needs.

Palazzoli

Digitalization: supporting people and the environment.

Digital advancement at Palazzoli represents concrete support for our workers and the environment. Through digitalization, we lighten the workload and allocate valuable resources to the training and empowerment of our employees. For our customers, this translates into **improved services, optimized processes, and constant, accessible dialogue**. For us, technology is the key to unlocking a simpler and more sustainable future.

Ethical principles and sustainable development.

The Palazzoli Group is engaged in a journey of success and expansion guided by ethical principles and a commitment to sustainable development. Solid governance and the corporate code of ethics highlight the importance of responsibility towards our employees, the community, and the environment. These principles are validated by **quality management** system certifications (ISO 9001, ISO 14001, ISO 45001), product quality assurance notifications (IMQ), and the **Quality Assessment Report** (IECEXQAR), specifically for explosive atmosphere environments; in addition to the **Carbon Footprint** certificate, which demonstrates our commitment to reducing carbon emissions, contributing to the well-being of the territory and future generations.

Our core values are supported by a solid financial foundation, confirming Palazzoli's **commitment to building a future where ethics and sustainability are fundamental pillars** of our work. International recognition of our efforts includes prestigious awards such as the RedDot Design Award, ADI Design Index, Good Design Award, and Construmat Barcelona, confirming our excellence in the industry.

Palazzoli

Environmental sustainability: achieving every goal together.

Palazzoli firmly believes that every goal is **the result of teamwork** involving everyone, from employees to stakeholders. Sustainability is a shared journey, where every step is crucial, and every contribution is valued. Through the active sharing of our ESG initiatives, we continue to raise the bar of self-produced green energy from renewable sources, contributing to the environment. Our products, which far exceed market standards in terms of durability, maximize energy savings. This **combination of self-produced green energy and production optimization translates into tangible sustainability**, reducing environmental impact and demonstrating our distinctive commitment to the planet and future generations.
