

TAIS and CEE Series

NAUTILUX Series

TER Series

The **Brescia Trade Fair Centre** is organised as a multimedia centre which is able to connect Brescia to the world around it and to its province; the most modern network technologies have been installed and it functions like the beating heart of the whole territory.

**RISK PROFILE**

- Facilitate connection between plugs and sockets that supply power to the stands;
- Reduce volumes to a minimum to provide free passage through the tunnels;
- Aesthetic illumination of the restaurant;
- Protect the kitchen machine power sockets against accidental impacts.

**THE SOLUTION**

- 63A sockets with “EASY CONTACT” device to make it easier to remove the plugs from the sockets;

- CEE plug in TAIS socket with inclination less than 30°;

- NAUTILUX pendant lamps in polished brass and elegant finish;

- TER sockets framed and flush-mounted with just 4 cm protrusion.
